<sup>\*</sup> Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time- weighted over ten hours unless otherwise specified.

## Section VI - Health Hazard Data:

Routes of Entry: Ingestion, absorption

**Health Hazards**:

Target Organs: Eyes, Skin

Carcinogenicity: NTP: No IARC: No OSHA: No

<u>Signs and Symptoms of Exposure:</u> May cause mild eye irritation. Skin irritation if exposed for prolong periods. Possible mild gastrointestinal irritation with nausea, diarrhea and vomiting. Emergency and First Aid Procedures:

Eye: Immediately wash the eyes with large amounts of water, occasionally

lifting the lower and upper lids. Get medical attention if any discomfort

continues.

Swallow: Drink water or milk. If irritation persists get medical attention.

Skin: If this product contacts the skin, promptly wash the contaminated skin

with water. If this product penetrates the clothing promptly remove the clothing and wash the skin with water. If irritation persists after washing,

get medical attention.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

# Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Collect and dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. May be disposed in a sanitary landfill.

<u>Precautions to be Taken in Handling and Storing:</u> Contact with water may breakdown the bar. Other Precautions:

#### **Section VIII - Control Measures:**

Respiratory Protection: Not normally required

Ventilation: Not normally required

<u>Protective Gloves:</u> Not normally required <u>Eye Protection:</u> Not normally required

Other Protective Clothing or Equipment: Not normally required

Work/Hygienic Practices: Avoid prolonged skin contact.

#### **Section VI - Health Hazard Data:**

Routes of Entry: Inhalation, ingestion, contact with skin or eyes

**Health Hazards**:

Acute: Irritation to skin and respiratory system. Causes eye burns. Permanent eye damage

could result without immediate first aid treatment

Chronic: None known.

Carcinogenicity: NTP: No IARC: No OSHA: No

### **Emergency and First Aid Procedures:**

*Eye:* Wash eyes for 15 minutes with tepid water, lifting lower and upper eyelids in the process. If irritation persists, consult a physician.

Swallow: Do not induce vomiting. Drink large quantities of milk or water.

Skin: Remove and launder contaminated clothing. Flood skin with plenty of water for at least 15 minutes.

Breathing: Move victim to fresh air.

# Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Sweep and contain all spilt product without raising dust. Flush contaminated area with water, if possible. Follow normal cleaning procedures.

Waste Disposal Method: Dispose of in compliance with all local, state and federal laws.

<u>Precautions to be Taken in Handling and Storing:</u> Handle carefully, avoid damaging containers.

Keep cover closed when not in use. Store below 100EF.

Other Precautions:

### **Section VIII - Control Measures:**

Respiratory Protection: Dust mask when handling large, open quantities.

Ventilation: Maintain adequate ventilation.

Protective Gloves: Rubber (latex)

Eye Protection: Goggles or safety glasses w/side shields

Other Protective Clothing or Equipment: Not ordinarily required.

Work/Hygienic Practices: Follow all prudent workplace safety procedures.

Stability: STABLE

Incompatibility (Conditions to avoid): None known.

Hazardous Polymerization: Will not occur

Hazardous Decomposition Products: Thermal decomposition may produce toxic vapor or gases.

#### Section VI - Health Hazard Data:

Routes of Entry: Skin, eyes, ingestion

Health Hazards: Acute and Chronic: Acute: Harmful if swallowed. Eye and skin

irritant. May cause permanent damage. Chronic: None Known.

<u>Carcinogenicity:</u> *NTP:* No

Signs and Symptoms of Exposure: Irritation or burning sensation

Emergency and First Aid Procedures:

Eye: Immediately flush eyes with large amounts of water, occasionally lifting the

lower and upper lids. Get medical attention.

Swallow: Rinse mouth with water then drink 1-2 glasses of water. Never give anything

by mouth to an unconscious person. Get immediate medical attention.

Skin: Flush with water for 15 minutes. Remove and launder contaminated clothing.

### Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Wear appropriate protective equipment. If possible, contain spill and collect in an approved container. Rinse affected area thoroughly with water. Keep product out of sewers or waterways. Hold for disposal.

Waste Disposal Method: In accordance with local, state and federal regulations.

<u>Precautions to Take in Handling and Storing:</u> Avoid contact with skin or eyes. Avoid breathing vapor, spray or mist. Store in original container in cool, dry place with adequate ventilation. Keep out of the reach of children. Keep container tightly closed when not in use.

Other precautions: Use according to label instructions.

#### **Section VIII - Control Measures:**

Respiratory Protection: Not required during normal use of product.

Ventilation: Use adequate ventilation.

Protective Gloves: Water impervious (latex, neoprene) recommended.

Eye Protection: Normally not needed.

Other Protective Clothing or Equipment: Not required.

Created: September 21, 2000 Revised: March 5, 2004

Respiratory Protection: Not required during normal use of product.

<u>Ventilation</u>: Use adequate ventilation. Protective Gloves: Rubber or latex.

Eye Protection: Goggles or safety glasses with shields.

Other Protective Clothing or Equipment: Rubber boots should be worn if working in standing solutions.

## **Section IX-Additional Information:**

DOT Shipping Name: Compounds, cleaning liquid, 8, NA1760, PGII

Hazard Class: Corrosive

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

<u>Constituent</u> <u>CAS #</u> <u>Concentration</u>

Butyl Cellosolve(Glycol Ether) 111-76-2 35%

This notification of reporting requirements, cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

The information accumulated herein is believed to be accurate, but is not warranted to be, whether originated with Michigan State Industries, Inc. or not. Recipients are advised to confirm in advance of need that the information is current, applicable, and suitable to their circumstances.

Revised: March 5, 2004

# Section V - Reactivity Data:

<u>Stability:</u> Product is stable under normal conditions. <u>Incompatibility (Conditions to avoid):</u> Strong oxidizers

Hazardous Polymerization: NONE

Hazardous Decomposition Products: None known.

#### Section VI - Health Hazard Data:

Routes of Entry: Ingestion, Contact

Health Hazards:

Target Organs: Eyes, skin

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: May cause irritation of the mucous membranes. Nausea

and vomiting if swallowed, Irritation if in the eyes. Defatting of skin.

Emergency and First Aid Procedures:

*Eye:* If this product contacts the eyes, promptly wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention if any discomfort continues.

Swallow: Give water. Get medical attention.

Skin: Flush with water. Apply moisturizer if skin is dry. Get medical attention if

any discomfort continues.

*Breathing:* N/A

# Section VII - Precautions for Safe Handling and Use

Steps to be Taken in Case of Material Release or Spill: Small spills may be diluted and flushed to a sanitary sewer drain with large amounts of water. Large spills should be contained, absorbed, collected and disposed.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. <u>Precautions to be Taken in Handling and Storing:</u> Keep container closed.

Other Precautions:

# **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal conditions

Ventilation: Not required under normal conditions

Protective Gloves: Wear protective gloves.

Eye Protection: Wear appropriate glasses, goggles or face shield to prevent eye contact.

Other Protective Clothing or Equipment:

Work/Hygienic Practices:

Page 3

Revised: March 5, 2004

# Section IX-Additional Information:

DOT Shipping Name: N/A Hazard Class: N/A

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

| <u>Constituent</u> | CAS #    | <u>Concentration</u> |

|--------------------|---|--|
| Reactivity-        | 0 | 2 B Moderate<br>1 B Slight<br>0 B None |

# Section V - Reactivity Data:

**Stability:** STABLE

Incompatibility (Conditions to avoid): Strong mineral acids, copper, metallic mercury, strong

oxidizers

**Hazardous Polymerization: NONE** 

Hazardous Decomposition Products: Carbon dioxide, ammonia.

#### Section VI - Health Hazard Data:

Routes of Entry: Contact, inhalation, ingestion

Health Hazards: Acute: If swallowed may cause severe damage to mucous

membranes and deep tissues and can result in death or penetration to vital areas. Can cause burns and deep ulceration upon skin contact. Can cause severe damage to the mucus membranes of the respiratory system. Can cause severe damage and blindness very quickly when in

contact with eyes.

Chronic: None Known

*Target Organs:* Eyes, skin and mucous membranes

Carcinogenicity: NTP: No IARC: No OSHA: No

<u>Signs and Symptoms of Exposure:</u> Irritation, burns Medical Conditions Generally Aggravated by Exposure:

Emergency and First Aid Procedures:

Eye: If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: Get medical attention immediately.

Skin: If this product contacts the skin, immediately flush the contaminated skin

with water. If this product penetrates the clothing, immediately remove the

clothing and flush the skin with water. Get medical attention promptly.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. If breathing has stopped, perform mouth-tomouth resuscitation. Keep the affected person warm and at rest. Get

medical attention as soon as possible.

# Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Contain spilled material, absorb and dispose of properly. Large spills may be contained and collected using vacuum equipment, dispose of unusable material.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does exhibit the Characteristic of Ignitability in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal.

<u>Precautions to be Taken in Handling and Storing:</u> Avoid high temperatures Other Precautions:

Page 3

Revised: March 5, 2004

# **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal conditions.

Ventilation: Not required under normal conditions.

Protective Gloves: Prevent excessive exposure with gloves.

Eye Protection: Wear appropriate glasses, goggles or face shield to prevent eye contact.

Other Protective Clothing or Equipment: Not required under normal conditions.

Work/Hygienic Practices: Wash hands after use.

## Section V - Reactivity Data:

Stability: Stable

<u>Incompatibility (Conditions to avoid):</u> Strong oxidizers, ammonia, surfactants. Avoid contact with aluminum, brass, copper, black iron or steel.

Hazardous Polymerization: Will not occur

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

Prepared: August 24, 2000 Revised: March 5, 2004

Page: 2

<u>Hazardous Decomposition Products:</u> Carbon dioxide, carbon monoxide, oxides of nitrogen.

Section VI - Health Hazard Data:

Routes of Entry: Contact, ingestion, inhalation

**Health Hazards**:

Target Organs: Eyes, skin, respiratory system

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Dizziness, irritation

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, flush the contaminated skin with water

promptly. If this product penetrates the clothing, immediately remove the clothing and flush the skin with water promptly, If irritation persists after

washing, get medical attention.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

# Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Flush small spill to sanitary sewer drain. For large spills contain, absorb, collect and dispose.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. <u>Precautions to be Taken in Handling and Storing:</u> Keep away form heat. DO NOT store in aluminum containers.

Other Precautions:

## **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal conditions.

Ventilation: Not required under normal conditions.

Protective Gloves: Use gloves to avoid prolong contact, not required under normal

conditions.

**Eye Protection:** Not required under normal conditions.

Other Protective Clothing or Equipment: Not required under normal conditions.

Work/Hygienic Practices:

#### Section IX-Additional Information:

DOT Shipping Name: N/A Hazard Class: N/A

## Section V - Reactivity Data:

Stability: STABLE

<u>Incompatibility(Conditions to avoid)</u>: Potential reaction with acids, alcohols, and other organic

materials. Amines, ammonium salts, methanol,

**Hazardous Polymerization:** None known

Hazardous Decomposition Products: When heated to decomposition may emit fumes of Na<sub>2</sub>O, K<sub>2</sub>O, C

#### Section VI - Health Hazard Data:

Routes of Entry: Contact, ingestion

Health Hazards: Acute: Severe eye and skin irritation

Chronic: None Known

Target Organs: Eyes, skin, respiratory system

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Irritation of the eyes, skin and respiratory system, coughing,

and sneezing. Eye and skin burns, vomiting and diarrhea.

Medical Conditions Generally Aggravated by Exposure: Dermatitis

Emergency and First Aid Procedures:

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, immediately flush the contaminated skin

with water. If this product penetrates the clothing, immediately remove the

clothing and flush the skin with water. Get medical attention promptly.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. If breathing has stopped, perform mouth-to-mouth resuscitation. Keep the affected person warm and at rest. Get

medical attention as soon as possible.

## Section VII - Precautions for Safe Handling and Use:

Steps to be Taken in Case of Material Release or Spill: Contain and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product does exhibit the hazardous characteristic of corrosivity (D002) listed in 40CFR 261, Subpart C. It is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. State or local hazardous waste regulations may apply if different from federal.

Precautions to be Taken in Handling and Storing:

Other Precautions:

Revised: August 25, 2000 Page: 3

#### **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal conditions

Ventilation: Not required under normal conditions

Protective Gloves: Chemically resistant

**Eye Protection:** Goggles to prevent eye contact

Other Protective Clothing or Equipment: Protective or work clothing that becomes wet or significantly contaminated should immediately be removed and replaced. Workers whose clothing may have become contaminated should change into uncontaminated clothing before leaving the work place.

<u>Work/Hygienic Practices:</u> Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance; this is irrespective of the recommendation involving the wearing of eye protection. Facilities for a quick drenching the body should be provided within the immediate work area for emergency use where there is possibility of exposure.

#### Section IX - Additional Information:

DOT Shipping Name: Compounds, Cleaning Liquid, 8, NA1760, PG III

#### Section VI - Health Hazard Data:

Routes of Entry: Eye and skin contact, inhalation and ingestion. Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Corrosive, causes severe burns to skin and eyes.

Target Organs: Eyes, skin, respiratory system

Acute: Moderately toxic by ingestion and skin contact, Irritant to eyes, skin, upper

respiratory system and mucous membranes, and a systemic irritant by

inhalation. Burns skin and causes dermatitis.

Chronic:

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water for at least 15 minutes, lifting the lower and upper lids.

Get medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: When skin becomes contaminated wash immediately.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. If breathing has stopped, perform mouth-to-mouth resuscitation. Keep the affected person warm and at rest. Get

medical attention as soon as possible.

# Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Contain, neutralize and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product does exhibit the hazardous characteristic of Corrosive (D002) as listed in 40CFR 261, Subpart C. It is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. State or local hazardous waste regulations may apply if different from federal.

<u>Precautions to be Taken in Handling and Storing:</u> Protect containers from physical damage, store away from heat, separate from alkalis. Avoid skin and eye contact, do not mix this product with any other product, avoid breathing vapors. Store in a cool, dry place, wash thoroughly after handling. Follow normal housekeeping procedures.

Other Precautions: Do not mix with any other products.

Revised: March 5, 2004 Page: 3

#### **Section VIII - Control Measures:**

<u>Respiratory Protection:</u> Normally not needed. Supplied air or self contained breathing apparatus if above regulatory levels

<u>Ventilation</u>: Mechanical ventilation to reduce concentration to below regulatory levels <u>Protective Gloves</u>: Wear chemical resistant gloves when handling this product <u>Eye Protection</u>: Wear appropriate glasses, goggles or face shield to prevent eye contact. <u>Other Protective Clothing or Equipment</u>: Wear appropriate personal protective clothing to prevent skin contact. Protective or work clothing that becomes wet should immediately be removed. Change work clothing daily.

<u>Work/Hygienic Practices:</u> Eyewash fountains and drench showers should be provided in areas where there is any possibility that workers could be exposed to the substance; this is irrespective of the recommendation involving the wearing of eye protection.

# Section IX-Additional Information:

DOT Shipping Name: Phosphoric Acid Solution, 8, UN1805, PG III

Hazard Class: Corrosive Material

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

ConstituentCAS #ConcentrationPhosphoric Acid7664-38-2>19%

This notification of reporting requirements, cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

Revised: March 5, 2004

# Section V - Reactivity Data:

Stability: STABLE

Incompatibility (Conditions to avoid): Hydroxides, amines, alkalies. Highly corrosive to most

metals.

<u>Hazardous Polymerization:</u> None known

Hazardous Decomposition Products: When heated to decomposition may emit fumes of

hydrogen chloride and chlorine.

## Section VI - Health Hazard Data:

Routes of Entry: Inhalation, Ingestion, Contact Health Hazards: Acute: Irritation of throat

Chronic: None documented

Target Organs: Eyes, skin, respiratory system

<u>Carcinogenicity:</u> *NTP:* No *IARC:* No *OSHA:* No <u>Signs and Symptoms of Exposure:</u> Irritation of eye, skin burns

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, immediately flush the contaminated skin

with water. If this product penetrates the clothing, immediately remove the

clothing and flush the skin with water. Get medical attention promptly.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. If breathing has stopped, perform mouth-to-mouth resuscitation. Keep the affected person warm and at rest. Get

medical attention as soon as possible.

## Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> CAUTION Material is highly corrosive to skin and metal. Contain, neutralize, and absorb spilled material, dispose of properly. Large spill may be collected using suitable vacuum equipment, dispose of unuseable material properly.

<u>Waste Disposal Method:</u> This product does exhibit the hazardous characteristic of Corrosivity as listed in 40CFR 261, Subpart C. It is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. State or local hazardous waste regulations may apply if different from federal.

<u>Precautions to be Taken in Handling and Storing:</u>

Other Precautions:

Revised: August 25, 2000 Page: 3

#### Section VIII - Control Measures:

<u>Respiratory Protection:</u> Respiratory Protection is not typically required in the use of this product in well ventilated areas. 5 ppm to 50 ppm chemical cartridge respirators are suitable. Above 50 ppm self contained or supplied air respirators are required.

Ventilation: Mechanical ventilation.

Protective Gloves: Wear chemically resistant gloves to prevent skin contact.

<u>Eye Protection:</u> Wear appropriate glasses, goggles or face shield to prevent product from contacting eyes.

<u>Protective Clothing or Equipment:</u> Wear appropriate personal protective clothing to prevent skin contact. Protective or work clothing that becomes wet should immediately be removed. <u>Work/Hygienic Practices:</u> Eyewash fountains and drench showers should be provided in areas where there is any possibility that workers could be exposed to the substance; this is irrespective of the recommendation involving the wearing of eye or other personal protection.

#### Section IX-Additional Information:

DOT Shipping Name: Hydrochloric Acid Mixture, 8, UN 1789, PGIII

Hazard Class: Corrosive Material

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

| <u>Constituent</u> | CAS #     | <u>Concentration</u> |
|--------------------|-----------|----------------------|
| Hydrochloric Acid  | 7647-01-0 | 9.0%                 |

## Section V - Reactivity Data:

Stability: STABLE

Incompatibility(Conditions to avoid): Salt solutions or acids

Hazardous Polymerization: Salt solutions or acids may destabilize (coagulate) the product.

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

Revised: March 2004 Page 2

<u>Hazardous Decomposition Products:</u> Thermal decomposition may produce carbon monoxide or carbon dioxide, ammonia and other toxic vapors.

## Section VI - Health Hazard Data:

Routes of Entry: Eye and skin contact

<u>Health Hazards</u>: *Acute:* Eye irritation

Chronic: None Known Target Organs: Eye and skin

Carcinogenicity: NTP: No IARC: No OSHA: No

Formaldehyde is a carcinogen, it is at very low concentrations in this product

Signs and Symptoms of Exposure: Eye irritation. In higher concentration respiratory system

irritation

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

Eye: If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, wash the contaminated skin with soap and

water.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Contain and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. Precautions to be Taken in Handling and Storing:

Other Precautions:

#### **Section VIII - Control Measures:**

Respiratory Protection: None required under normal conditions, if below regulatory levels

Ventilation: Required only to remain below regulatory levels

Protective Gloves: Chemically resistant

Eye Protection: Goggles to prevent eye contact

Other Protective Clothing or Equipment: Wear appropriate personal protective clothing to

prevent skin contact.

Work/Hygienic Practices:

Revised: March 2004

|-------------|---|----------------------------|
| Fire B      | 1 | 3 B Severe<br>2 B Moderate |
| Reactivity- | 0 | 1 B Slight 0 B None        |

#### Section V - Reactivity Data:

Stability: STABLE

Incompatibility(Conditions to avoid): Salt solutions or acids may de-stabilize the emulsion.

Hazardous Polymerization: None known

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

Page 2

Revised: March 2004

<u>Hazardous Decomposition Products:</u> Thermal decompositions may produce carbon monoxide, carbon dioxide, ammonia and other toxic vapors.

## Section VI - Health Hazard Data:

Routes of Entry: Contact, inhalation

Health Hazards: Acute: Eye irritation

*Chronic:* Sensitization of the skin, cancer (Formaldehyde)

Target Organs: Skin and eyes

Carcinogenicity: NTP: No IARC: No OSHA: No

Formalin is in this product with limited quantities. Formaldehyde is a carcinogen

Signs and Symptoms of Exposure: Eye irritation

Medical Conditions Generally Aggravated by Exposure:

Emergency and First Aid Procedures:

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, promptly wash the contaminated skin with

water. If this product penetrates the clothing promptly remove the clothing

and wash the skin with water. If irritation persists after washing, get

medical attention.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use:

<u>Steps to be Taken in Case of Material Release or Spill:</u> Contain and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. Precautions to be Taken in Handling and Storing:

Other Precautions:

#### **Section VIII - Control Measures:**

<u>Respiratory Protection:</u> None required if adequate ventilation is maintained; otherwise an approved organic vapor full-face respiratory is advised

Ventilation: Local mechanical ventilation

Protective Gloves: Rubber or PVC

**Eye Protection:** Goggles or safety glasses with shields

Other Protective Clothing or Equipment:

<u>Work/Hygienic Practices:</u> Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance; this is irrespective of the recommendation involving the wearing of eye protection. Facilities for a quick drenching the body should be provided within the immediate work area for emergency use where there is possibility of exposure.

Revised: March 2004 Page: 3

## **Section IX-Additional Information:**

DOT Shipping Name: N/A Hazard Class: N/A

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

| Constituent                       | <u>CAS #</u> | <u>Concentration</u> |
|-----------------------------------|--------------|----------------------|
| Formaldehyde                      | 50-00-0      | < 0.2 %              |

## Section V - Reactivity Data:

Stability: STABLE

<u>Incompatibility(Conditions to avoid):</u> Reducing agents, alkalies, strong oxides, chlorinated

compounds. DO NOT mix with solutions containing bleach or ammonia.

Hazardous Polymerization: None known

Hazardous Decomposition Products: At high temperatures may emit idodine vapors.

#### Section VI - Health Hazard Data:

Routes of Entry: Contact, ingestion

Health Hazards: Acute: Burns upon contact

*Chronic:* Dermatitis

Target Organs: Eyes, skin, respiratory system

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Irritation to eyes, skin, upper respiratory system. Eye and

skin burns, dermatitis

Medical Conditions Generally Aggravated by Exposure:

Emergency and First Aid Procedures:

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately. DO

NOT induce vomiting.

Skin: If this product contacts the skin, immediately flush the contaminated skin

with water. If this product penetrates the clothing, immediately remove the

clothing and flush the skin with water. Get medical attention promptly.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. If breathing has stopped, perform mouth-to-mouth resuscitation. Keep the affected person warm and at rest. Get

medical attention as soon as possible.

### Section VII - Precautions for Safe Handling and Use:

<u>Steps to be Taken in Case of Material Release or Spill:</u> Contain, neutralize with soda ash or sodium bicarbonate and sodium thiosulfate or sodium sulfite and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unuseable material properly. Flush residue material to sanitary sewer with large amounts of water.

<u>Waste Disposal Method:</u> For disposal purposes this product does exhibit the hazardous waste characteristic of Corrosivity (D002), listed in 40CFR 261, Subpart C. It is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. State or local hazardous waste regulations may apply if different from federal.

Precautions to be Taken in Handling and Storing: This product is toxic to aquatic life. Keep

Page 3

Revised: March 2004

out of lakes, ponds, or streams. Do not contaminate water by cleaning equipment or disposal of wastes into water ways.

Other Precautions: Avoid contamination of food or feed stuff. Keep containers closed when not in use, Do not store below 0 EF or above 100 EF for extended periods. Do not reuse containers.

#### Section VIII - Control Measures:

<u>Respiratory Protection:</u> Not required under normal conditions. Follow NIOSH/OSHA guidance for respiratory program if required.

Ventilation: Mechanical if required.

<u>Protective Gloves:</u> Wear acid resistant gloves such as rubber or neoprene

Eye Protection: Wear goggles or full face shield.

Other Protective Clothing or Equipment:

Work/Hygienic Practices: Change clothes at the end of each work day.

## Section IX - Additional Information:

## Section III - Hazards Identification

<u>Emergency Overview</u>: May cause digestive tract irritation. Ingestion may cause nausea, vomiting, pain, upset stomach, diarrhea. May cause eye irritation. Prolonged or repeated contact may cause skin irritation. Prolonged exposure may cause eye, nose and respiratory tract irritation. See sections 3, 5, & 6.

<u>Primary routes of exposure</u>: Eye. Skin. Inhalation (breathing).

<u>Eye Contact</u>: May cause slight to mild irritation. Can cause burning sensation, tearing, and redness.

<u>Skin Contact</u>: Prolonged or repeated contact may cause irritation. May be absorbed through the skin.

<u>Inhalation</u> (Breathing): Can be irritating nose and respiratory tract following prolonged exposure.

<u>Ingestion</u> (Swallowing): Irritating to the mouth, throat, and stomach. May cause nausea, vomiting, pain, and stomach upset (e.g. diarrhea).

Target Organs/Chronic Effects: Lungs and respiratory system. Eyes.

Conditions aggravated by exposure: Skin.

Carcinogenicity:

|                                   | ACGIH | IARC | NTP | OSHA |

Revised: March 2004 Page:2 of 3 2

#### Section IV- First Aid Measures:

<u>Eye Contact</u>: Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

<u>Skin Contact</u>: Immediately flush with water. Remove contaminated clothing and shoes. Get medical attention if irritation persists. Professionally wash clothing and shoes before re-use. <u>Inhalation</u> (Breathing): Remove to fresh air. If symptoms develop, seek immediate medical attention. If not breathing, give artificial respiration.

<u>Ingestion</u> (Swallowing): Seek medical attention. Immediately induce vomiting, as directed by medical personnel. Never give anything by mouth to an unconscious person.

<u>Notes to Physicians</u>: Treatment should be directed at preventing absorption, administering to symptoms (if they occur) and providing supportive therapy.

## Section V - Fire Fighting Methods:

<u>Flash Point</u>: Not applicable <u>Method</u>: Not applicable <u>Explosive Limits</u>: LEL (%) Not Determined UEL (%) Not Determined

Autoignition: Not Determined

<u>Hazardous Combustion and Decomposition Products</u>: Smoke, soot, and toxic/irritating fumes (i.e., carbon dioxide, carbon monoxide, etc.)

<u>Fire and Explosion Hazards</u>: During a fire, irritating and highly toxic gases may be generated during combustion or decomposition.

Extinguishing Media: Water-based material that will not burn until all of water has boiled away. Residual solids and/or product container may support combustion. Use water, foam, dry chemical or carbon dioxide.

<u>Fire Fighting Procedures/Equipment</u>: Fire fighters and others who may be exposed to the products of combustion should be equipped with NIOSH-approved positive pressure self-contained breathing apparatus (SCBA) and full protective clothing.

#### Section VI - Accidental Release Measures

<u>Evacuation</u>: Isolate hazard area. Keep unnecessary and unprotected personnel from entering. <u>Containment</u>: Safely stop discharge. Contain material, as necessary, with a dike or other barrier. Stop material from contaminating soil, or from entering sewers or bodies of water.

<u>Clean-up Personal Protection Equipment</u>: Appropriate safety measures and protective equipment should be used.

<u>Collection and Disposal</u>: Stop discharge, if safe to do so. Use proper protective equipment. Cover spills with absorbent clay or sawdust and place in closed chemical waste containers. Dispose of according to applicable local, state and federal regulations.

<u>Reporting</u>: Spills of this material in excess of a component=s RQ must be reported to the National Response Center (1-800-424-8802) and to the appropriate state and local emergency response organizations. No regulated ingredients.

# Section VII - Handling and Storage:

Storage Temperature: <120F 48.8C

Storage Conditions: Store in cool, dry, well ventilated area. Protect from freezing.

<u>Transfer</u>: No special precautions are needed. Follow good handling practices.

<u>Personal Hygiene</u>: Wash thoroughly after handling, especially before eating, drinking, smoking, and using restroom facilities. Wash contaminated goggles face shield, and gloves.

Revised: March 2004 Page: 3

Professionally launder contaminated clothing before re-use.

<u>Empty Container Precautions</u>: Attention! This container can be hazardous when empty. Follow label warnings even after the container is emptied since empty containers may retain product residues. Do not reuse empty container without professional cleaning for food, clothing or products for human or animal consumption or where skin contact can occur.

## Section VIII - Exposure Controls/Personal Protection:

### **Exposure Guidelines**

ACGIH - TLV - No regulated ingredients

OSHA - PEL - No regulated ingredients

<u>Engineering Controls/Ventilation</u>: Local exhaust ventilation is recommended when vapors, mists or dusts can be released.

<u>Eye Protection</u>: Wear chemical splash goggles or safety glasses with side shields. An eye wash facility should be readily available.

<u>Skin Protection</u>: Wear protective clothing and appropriate impervious gloves. Because a variety of protective glove exist, consult glove manufacturer to determine the proper type for a specific operation.

<u>Respiratory Protection</u>: Wear NIOSH/MSHA-approved equipment. Determine the appropriate type by consulting the respirator manufacturer. High airborne concentrations many necessitate the use of self-contained breathing apparatus (SCBA) or a supplied air respirator. Respiratory protection programs must be in compliance with 29 CFR 1910.134.

# Section IX - Physical and Chemical Properties:

| Appearance     | white          | Odor             | Mild        |
|----------------|----------------|------------------|-------------|
| Physical State | liquid         | Solubility       | Dispersible |
| pH             | 9.0            | Boiling Point    | 212F 100C   |
| VOC Material   | Not Determined | Specific Gravity | 1.05        |
| %Non-Vol (w/w) | 38             |                  |             |

#### Section X - Stability and Reactivity

Chemical Stability: Stable under normal conditions of use.

<u>Hazardous Polymerization</u>: Will not occur <u>Conditions to Avoid</u>: High Temperatures

Incompatibility with other Materials: Oxidizers.

#### Section XI - Disposal Considerations:

Disposal: Dispose of in accordance with all local, state, and federal regulations.

<u>General Statements</u>: Federal regulations may apply to empty container. State and/or local regulations may be different.

<u>General Recommendations</u>: Of the methods of disposal currently available, it is recommended that an alternative be selected according to the following order of preference, based upon environmental acceptability: 1) recycle or rework, if feasible; 2) incinerate at an authorized facility; or 3) treat at an acceptable waste treatment facility.

<u>Special Instructions</u>: Be sure to contact the appropriate government environmental agencies if further guidance is required.

Manufacturer's Name: Michigan State Industries, Inc.

Address: Scott Correctional Facility

Emergency Phone: (734) 459-7400 x311 / 320

(800) 222-1222 Poison Control

Technical Information: (734) 459-7400 x311 / 320

Chemical Name: Detergent

## Section II - Hazardous Ingredients/Identify Information

| Hazardous Components | CAS No.   | OSHA PEL*       | ACGIH TLV*      | <u>Percentage</u> |
|----------------------|-----------|-----------------|-----------------|-------------------|
| D=Limonene           | 5989-27-5 | not established | not established | <12%              |
| Butyl Carbitol       | 112-34-5  | not established | not established | <5%               |
| Diethanolamine       | 111-42-2  | 3 PPM           | 3 PPM           | <3%               |

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

### Section III - Physical/Chemical Characteristics

Boiling Point:214E F.Specific Gravity:1.04Vapor Pressure:Same as WaterVapor Density:N/AEvaporation Rate:(Ethyl Ether =1):1.0pH:10

Solubility in Water: Complete

Appearance and Color: Amber liquid, citrus odor

## **Section IV- Fire and Explosion Hazard Data:**

Flash Point: >200EF. Flammable Limits: LEL: N/A UEL: N/A

Extinguishing Media: Water spray, dry chemical, CO2 or alcohol type foam

<u>Special Fire Fighting Procedures:</u> Firefighters should wear self-contained breathing apparatus and full protective clothing. Use water spray to cool nearby containers and structures exposed.

Unusual Fire and Explosion Hazards: Extinguish all nearby sources of ignition.

| Health -    | 1 | HAZARDS<br>4 B Extreme     |
|-------------|---|----------------------------|
| Fire B      | 1 | 3 B Severe<br>2 B Moderate |
| Reactivity- | 0 | 1 B Slight<br>0 B None     |

Revised: March 2004 Page: 2 2

## Section V - Reactivity Data:

Stability: Stable

Conditions to avoid: Heat, sparks and open flame

Incompatibility: Strong oxidizing agent and acidic agents including clays.

Hazardous Polymerization: None

Hazardous Decomposition Products: None Known

#### **Section VI - Health Hazard Data:**

Routes of Entry: skin, inhalation, ingestion

<u>Signs & Symptoms of Exposure:</u> *Inhalation:* No effects expected. In <u>very high concentrations only</u>, headache, giddiness, mental confusion, nausea. *Skin Contact:* May be irritating to skin. *Eye Contact:* Contact with eyes will be painful and irritating. It may cause chemical burns.

Chronic Effects: No specific information available

<u>Carcinogenicity:</u> NTP: No LARC: No OSHA: No

## **Emergency and First Aid Procedures:**

Eyes: Immediately flush with running water for at least 15 minutes. Consult a physician.

Skin: Immediately flush with running water for at least 15 minutes. If irritation persists, consult a physician.

*Ingestion:* Do not induce vomiting. Immediately consult a physician. *Inhalation:* Move to fresh air, aid in breathing and get medical help.

## **Section VII - Precautions for Safe Handling and Use**

Steps to be Taken in Case of Material Release or Spill:

<u>Waste Disposal Method:</u> Dispose of material in accordance with all local, state and federal regulations.

<u>Precautions to be Taken in Handling and Storing:</u> Store in dry location at room temperature. Avoid skin and eye contact. Wash thoroughly after handling. Avoid breathing vapors. Use with adequate ventilation. Keep containers and vapors away from heat, sparks and flames. Keep container closed when not in use.

<u>Other Precautions:</u> Do not reuse container. Containers, even when empty, will retain product residue and vapors. Handle empty containers as though they were full. Minimize skin contact. Ventilate confined spaces. Keep product out of sewers.

## **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal use.

<u>Ventilation</u>: Use adequate ventilation. <u>Protective Gloves:</u> Rubber or PVC

Eye Protection: OSHA approved goggles w/side shields.

Other Protective Clothing or Equipment: Rubber apron recommended.

Routes of Entry: Contact and ingestion

<u>Health Hazards</u>: *Acute:* Irritation of eyes and skin

Chronic: None Known Target Organs: Eyes and Skin

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Irritation

Medical Conditions Generally Aggravated by Exposure: Dermatitis

Emergency and First Aid Procedures:

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: Get medical attention immediately.

Skin: If this product contacts the skin, flush the contaminated skin with water

promptly. If irritation persists after washing, get medical attention.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use:

<u>Steps to be taken in Case of Material Release or Spill:</u> Collect spilled material dispose of properly. Dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. <u>Precautions to be Taken in Handling and Storing:</u> Keep dry.

Other Precautions:

#### **Section VIII - Control Measures:**

Respiratory Protection: None required under normal conditions. If required use NIOSH approved respirator.

Ventilation: General ventilation is adequate. Use local exhaust fan if needed.

Protective Gloves: Chemical resistant

Eye Protection: Goggles to prevent eye contact

Other Protective Clothing or Equipment:

Flash Point: NONE <u>Flammable Limits:</u> *LEL*: N/A *UEL:* N/A <u>Extinguishing Media:</u> Water or dry chemical as appropriate to combustibles in the area of the fire

<u>Special Fire Fighting Procedures:</u> Product readily dissolves in water to form a weak sulfuric acid solution. No gases or toxic fumes are emitted from this reaction, but precautions for exposure to sulfuric acid should be followed.

<u>Unusual Fire and Explosion Hazards:</u> If water is used to extinguish combustibles and product is dissolved in water forming sulfuric acid, wear acid protective equipment. If elevated temperatures (<570EF) are reached, self-contained breathing apparatus should be worn.

| Health -    | 2 | HAZARDS 4 B Extreme        |
|-------------|---|----------------------------|
| Fire B      | 0 | 3 в Severe<br>2 в Moderate |
| Reactivity- | 0 | 1 в Slight<br>0 в None     |

# **Section V - Reactivity Data:**

Stability: STABLE

<u>Incompatibility (Conditions to avoid)</u>: Avoid contact with strong alkaline materials such as caustic. Reacts with water to form a weak sulfuric acid solution.

Hazardous Polymerization: None known

<u>Hazardous Decomposition Products:</u> If heated in excess of 570EF sulfur dioxide and sulfur trioxide are formed.

#### **Section VI - Health Hazard Data:**

Routes of Entry: Contact, inhalation, ingestion Health Hazards: Acute: Irritation

Chronic: None Known

Target Organs: Eyes, skin, respiratory tract

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Mild to strong irritation to eyes, skin, nose, mouth, throat,

lungs, esophagus and stomach.

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

Eye: If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get medical attention immediately. DO NOT use chemical antidotes or

neutralizing solutions.

Swallow: If this product has been swallowed, get medical attention immediately. DO

NOT induce vomiting.

Skin: If this product contacts the skin, immediately flush the contaminated skin

with water. If this product penetrates the clothing, immediately remove the

clothing and flush the skin with water. Get medical attention promptly. If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use

Steps to be Taken in Case of Material Release or Spill: Collect spilled material, dispose of unusable material properly. Neutralize non-collectable material with weak alkaline solution. May be flushed to sanitary sewer with large amounts of water.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. <u>Precautions to be Taken in Handling and Storing:</u> Keep containers closed and in dry conditions.

Other Precautions:

Breathing:

#### **Section VIII - Control Measures:**

Respiratory Protection: NIOSH or MSA certified dust mask should be worn when handling this product.

Ventilation: Local ventilation with dust collector is recommended.

Protective Gloves: Wear acid resistant gloves such as rubber or neoprene.

Eye Protection: Safety goggles or full face shield

Other Protective Clothing or Equipment: Clothes should completely cover skin to avoid skin

Revised: March 2004 Page: 3

contact.

Work/Hygienic Practices: Change clothing at the end of each work day.

Emergency Phone: (734) 459-7400 x311 / 320

(800) 222-1222 Poison Control

Technical Information: (734) 459-7400 x311 / 320

Chemical Name: Cleaning Compound

## Section II - Hazardous Ingredients/Identify Information

Hazardous Components CAS No. OSHA PEL\* ACGIH TLV\*

Silica (respirable quartz) 14808-60-7 10 mg/m3  $\% \text{SiO}_2 + 2$ 

#### Section III - Physical/Chemical Characteristics

| Boiling Point:                             | N/A | Specific Gravity:           | 1.07 |
|--|-----|-----------------------------|------|
| <u>Vapor Pressure:</u>                     | N/A | Vapor Density:              | N/A  |
| <u>Evaporation Rate: (Ethyl Ether =1):</u> | N/A | <b>Solubility in Water:</b> | 100% |

Appearance and Color: White powder with mild odor

#### Section IV- Fire and Explosion Hazard Data:

Flash Point: N/A Flammable Limits: LEL: N/A UEL: N/A

Extinguishing Media: Dry chemical, carbon dioxide, sand

Special Fire Fighting Procedures: Fire fighters should wear self-contained breathing apparatus

and protective clothing.

Unusual Fire and Explosion Hazards:

#### **NFPA 704**

| Health -<br>Fire B | 2<br>0 | HAZARDS 4 B Extreme 3 B Severe 2 B Moderate |
|--------------------|--------|---|
| Reactivity-        | 0      | 1 в Slight<br>0 в None                      |

## Section V - Reactivity Data:

Stability: STABLE

Incompatibility (Conditions to avoid): Hydroflouric acid, reducing agents and other acids

Hazardous Polymerization: None known

Hazardous Decomposition Products: None Known

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume (ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

Page 2

Revised: March 2004

#### Section VI - Health Hazard Data:

Routes of Entry: Contact, inhalation

<u>Health Hazards</u>: *Acute:* Coughing, difficulty breathing, wheezing, eye irritation

Chronic: Decreased pulmonary function, Silicosis

Target Organs: Eyes, Respiratory system

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure:

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Contain and absorb spilled material, dispose of properly. Large spill may be collected using dust less or wet vacuum equipment, dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. Precautions to be Taken in Handling and Storing:

Other Precautions:

#### **Section VIII - Control Measures:**

<u>Respiratory Protection:</u> Good Industrial hygiene practices recommend that engineering controls be used to reduce concentrations to the permissible exposure level. If controls are impractical and respirators are required then a complete respiratory protection program should be instituted.

Ventilation: Mechanical

<u>Protective Gloves:</u> None needed under normal conditions <u>Eye Protection:</u> None needed under normal conditions

Other Protective Clothing or Equipment: None needed under normal conditions

Work/Hygienic Practices: Practice good housekeeping

Revised: March 2004 Page: 3

DOT Shipping Name: Not applicable Hazard Class: Not applicable

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

<u>Constituent</u> <u>CAS #</u> <u>Concentration</u>

None

This notification of reporting requirements, cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

## Section V - Reactivity Data:

<u>Stability:</u> STABLE <u>Incompatibility(Conditions to avoid):</u> Hazardous Polymerization: None known

Hazardous Decomposition Products: When heated to decompositions emits toxic fumes of

Na<sub>2</sub>O and PO<sub>x</sub>

#### Section VI - Health Hazard Data:

Routes of Entry: Contact and ingestion

<u>Health Hazards</u>: *Acute:* Irritation of eyes and skin

Chronic: None Known Target Organs: Eyes and Skin

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Irritation

Medical Conditions Generally Aggravated by Exposure: Dermatitis

Emergency and First Aid Procedures:

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: Get medical attention immediately.

Skin: If this product contacts the skin, flush the contaminated skin with water

promptly. If irritation persists after washing, get medical attention.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

#### Section VII - Precautions for Safe Handling and Use:

<u>Steps to be Taken in Case of Material Release or Spill:</u> Collect spilled material dispose of properly. Dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. <u>Precautions to be Taken in Handling and Storing:</u> Keep dry.

Other Precautions:

#### Section VIII - Control Measures:

<u>Respiratory Protection:</u> None required under normal conditions. If required use NIOSH approved respirator.

<u>Ventilation</u>: General ventilation is adequate. Use local exhaust fan if needed.

Protective Gloves: Chemical resistant

Eye Protection: Goggles to prevent eye contact

Other Protective Clothing or Equipment:

Work/Hygienic Practices:

| Reactivity-        | 1   | 1 B Slight<br>0 B None                      |

## Section V - Reactivity Data:

<u>Stability:</u> STABLE under normal conditions. May become unstable and can explode on rapid heating or percussion.

<u>Incompatibility (Conditions to avoid):</u> Strong oxidizers, acids, aluminum. Reacts with carbon, diasonium salts, n,n-dichloromethylamine; o-nitroaniline diazonium salt and water..

Hazardous Polymerization: None known.

<u>Hazardous Decomposition Products:</u> At high temperatures carbon dioxide, sulfur oxides, and  $Na_2O$ .

#### Section VI - Health Hazard Data:

Routes of Entry: Contact

Health Hazards: Acute: Eye, skin and mucous membrane irritation

Chronic: None Known

Target Organs: Eyes, skin and mucous membranes

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: eye irritation

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, promptly wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention if any discomfort continues.

Swallow: Get medical attention immediately.

Skin: Flush with water.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Collect and dispose of unuseable material. May flush residue with large amounts of water to sanitary sewer.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if it become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal.

<u>Precautions to be Taken in Handling and Storing:</u> Store in dry place between 50 and 120EF.

High humidity may cause caking

Other Precautions:

#### **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal conditions.

Ventilation: Not required under normal conditions.

<u>Protective Gloves:</u> Not required under normal conditions.

<u>Eye Protection:</u> Wear appropriate glasses, goggles or face shield to prevent eye contact. <u>Other Protective Clothing or Equipment:</u> Wear appropriate personal protective clothing to prevent skin contact.

Work/Hygienic Practices: Wash hands after use

(800) 222-1222 Poison Control

Technical Information: (734) 459-7400 x311 / 320

Chemical Name: Disinfectant

# Section II - Hazardous Ingredients/Identify Information

| Hazardous Components             | CAS No.    | OSHA PEL* | ACGIH TLV* |
|----------------------------------|------------|-----------|------------|
| Sodium Sulfate                   | 7757-82-6  | None      |            |
| Sodium Tripolyphosphate          | 13573-18-7 | None      |            |
| Sodium Dichloro-s-triazinetrione | 2244-21-5  | None      |            |

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

## Section III - Physical/Chemical Characteristics

| Boiling Point:                         | N/A | Specific Gravity:     | 1.076 |
|--|-----|-----------------------|-------|
| Vapor Pressure:                        | N/A | <u>Vapor Density:</u> | N/A   |
| Evaporation Rate: (Ethyl Ether $=1$ ): | N/A | Solubility in Water:  | 100%  |

Appearance and Color: White powder with mild odor.

## Section IV- Fire and Explosion Hazard Data:

Flash Point: N/A Flammable Limits: LEL: N/A UEL: N/A

Extinguishing Media: Water, dry chemical, carbon dioxide.

<u>Special Fire Fighting Procedures:</u> Fire fighters should wear self-contained breathing apparatus and protective clothing.

<u>Unusual Fire and Explosion Hazards:</u> Containers may rupture explosively if contaminated or exposed to heat.

#### NFPA 704

| Health -    | 1 | HAZARDS 4 B Extreme        |
|-------------|---|----------------------------|
| Fire B      | 0 | 3 B Severe<br>2 B Moderate |
| Reactivity- | 1 | 1 B Slight<br>0 B None     |

Revised: March 2004

## Section V - Reactivity Data:

Stability: STABLE

<u>Incompatibility (Conditions to avoid)</u>: May react with aluminum. Contact with organic or easily oxidizable materials may result in fire.

Hazardous Polymerization: None known

Hazardous Decomposition Products: When heated to decomposition may emit fumes of PO<sub>x</sub>,

SO<sub>x</sub> and Na<sub>2</sub>O.

# Section VI - Health Hazard Data:

Routes of Entry: Contact, ingestion

Health Hazards: Acute: Irritation and/or burns to eyes, skin, respiratory tract,

mucous membranes and gastrointestinal tract.

Chronic: None Known

Target Organs: Eyes

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Ingestion of large amounts may cause catharsis,

hemorrhages from the intestine.

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, promptly wash the contaminated skin

with soap and water. If this product penetrates the clothing, promptly

remove the clothing and wash the skin with soap and water.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use

<u>Steps to be Taken in Case of Material Release or Spill:</u> Collect spilled material, dispose of unusable product. Residue quantity may be flushed with large amounts of water to the sanitary sewer.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. <u>Precautions to be Taken in Handling and Storing:</u> Keep dry, high humidity may cause caking. <u>Other Precautions:</u>

Revised: March 2004

### **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal conditions.

Ventilation: Not required under normal conditions.

Protective Gloves: Chemically resistant

<u>Eye Protection:</u> Wear appropriate glasses, goggles or face shield to prevent eye contact. <u>Other Protective Clothing or Equipment:</u> Wear appropriate personal protective clothing to

prevent skin contact.

Work/Hygienic Practices: Remove contaminated clothing, wash hands after use.

# **Section IX-Additional Information:**

DOT Shipping Name: N/A Hazard Class: N/A

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

<u>Constituent</u> <u>CAS #</u> <u>Concentration</u>

None

This notification of reporting requirements, cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

## Section IX - Additional Information:

DOT Shipping Name: N/A Hazard Class: N/A

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

Constituent CAS # Concentration

None

This notification of reporting requirements cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

# MATERIAL SAFETY DATA SHEET

Trade Name: Non-Phosphate Laundry Detergent #8788 Prepared: August 28, 2000

Revised: March 2004

### **Section I: - Source Information**

Manufacturer's Name: Michigan State Industries, Inc.

Address: Scott Correctional Facility

Emergency Phone: (734) 459-7400 x311 / 320

(800) 222-1222 Poison Control

Technical Information: (734) 459-7400 x311 / 320

Chemical Name: Detergent

## Section II - Hazardous Ingredients/Identify Information

| Hazardous Components | CAS No.   | OSHA PEL* | ACGIH TLV* |
|----------------------|-----------|-----------|------------|
| Sodium Carbonate     | 497-19-8  | None      |            |
| Sodium Metasilicate  | 6834-92-0 | None      |            |
| Sodium Sulfate       | 7757-82-6 | None      |            |

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume (ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

## Section III - Physical/Chemical Characteristics

Boiling Point:N/ASpecific Gravity:0.83Vapor Pressure:N/AVapor Density:N/A

<u>Evaporation Rate: (Ethyl Ether = 1):</u> N/A Solubility in Water: N/A

Appearance and Color: White powder with slight odor

# **Section IV- Fire and Explosion Hazard Data:**

Flash Point: N/A Flammable Limits: LEL: N/A UEL: N/A

Extinguishing Media: Water, dry chemical, carbon dioxide, foam

<u>Special Fire Fighting Procedures:</u> Fire fighters should wear self-contained breathing apparatus and protective clothing.

<u>Unusual Fire and Explosion Hazards:</u>

## NFPA 704

| Health -    | 1 | HAZARDS<br>4 B Extreme     |
|-------------|---|----------------------------|
| Fire B      | 0 | 3 B Severe<br>2 B Moderate |
| Reactivity- | 1 | 1 B Slight<br>0 B None     |

## **Section V - Reactivity Data:**

Revised: March 2004

Stability: STABLE

Incompatibility (Conditions to avoid): Can react violently with aluminum, phosphoric acid,

sulfuric acid, fluoride, lithium, 2,4,6-trinitro-toluene.

Hazardous Polymerization: None known

<u>Hazardous Decomposition Products:</u> When heated to decomposition emits toxic fumes of SO<sub>x</sub>,

PO<sub>x</sub> and Na<sub>2</sub>O.

### **Section VI - Health Hazard Data:**

Routes of Entry: Contact, ingestion

<u>Health Hazards</u>: Acute: Eye, skin and mucous membrane irritation

Chronic: None Known Target Organs: Eyes, skin

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Eye and mucous membrane irritation. Ingestion causes

gastrointestinal upset.

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, promptly wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention if any discomfort continues.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, promptly wash the contaminated skin with

soap and water. If this product penetrates the clothing, promptly remove

the clothing and wash the skin with soap and water.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use

<u>Steps to be taken in Case of Material Release or Spill:</u> Collect spilled material, dispose of unusable product properly. Flush residue quantities to sanitary sewer with large amounts of water.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. Precautions to be taken in Handling and Storing: Keep dry

Other Precautions:

Revised: March 2004

Respiratory Protection: None required under normal conditions.

Ventilation: None required under normal conditions.

Protective Gloves: Chemically resistant.

<u>Eye Protection:</u> Wear appropriate glasses, goggles or face shield to prevent eye contact. <u>Other Protective Clothing or Equipment:</u> Wear appropriate personal protective clothing to

prevent skin contact.

Work/Hygienic Practices: Wash hands after use.

Stability: STABLE

Incompatibility (Conditions to avoid): Can react with aluminum, phosphoric acid, sulfuric acid,

fluoride, lithium, 2,4,6-Trinitro-toluene

<u>Hazardous Polymerization:</u> None known

<u>Hazardous Decomposition Products:</u> When heated to decomposition may emit fumes of  $Na_2O$ ,  $PO_2$  and  $SO_2$ ,  $CO_2$ .

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

Revised: March 2004

### Section VI - Health Hazard Data:

Routes of Entry: Contact, ingestion

Health Hazards: Acute: Respiratory changes, increased urine volume, sodium level

changes

Chronic:

Target Organs: Eyes and skin

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Eye and skin irritant. Ingestion of large amounts may cause

catharsis, hemorrhages from the intestine.

Medical Conditions Generally Aggravated by Exposure:

Emergency and First Aid Procedures:

*Eye:* If this product contacts the eyes, promptly wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention if any discomfort continues.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, flush the contaminated skin with water

promptly. If this product penetrates the clothing, immediately remove the clothing and flush the skin with water promptly, if irritation persists after

washing, get medical attention.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

# Section VII - Precautions for Safe Handling and Use:

Steps to be taken in Case of Material Release or Spill: Collect spilled material, properly dispose of unusable product. Residue may be flushed to sanitary sewer with large amounts of water. Waste Disposal Method: This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. Precautions to be taken in Handling and Storing: Keep dry Other Precautions:

# Section VIII - Control Measures:

No exposure limits have been established for this specific product however, the following limits may apply

Sodium Dichloro-S-Triazinetrione 2893-78-9

 $10 \text{mg/m}^3$  < 3%

Although OSHA and ACGIH have not established specific exposure limits for this material, they have established for the following nuisance dusts.

OSHA PEL/TWA: TOTAL 15mg/m<sup>3</sup>; RESPIRABLE 5mg/m<sup>3</sup> ACGIH TLV/TWA TOTAL 10mg/m<sup>3</sup>; RESPIRABLE 5mg/m<sup>3</sup>

#### Section III - Physical/Chemical Characteristics

Boiling Point: N/A Specific Gravity: NO DATA

Vapor Pressure: N/A Vapor Density: N/A

Evaporation Rate: (Ethyl Ether = 1): N/A Solubility in Water: Complete

Appearance and Color: White powder, chlorine odor

### **Section IV- Fire and Explosion Hazard Data:**

Flash Point: N/A Flammable Limits: LEL: N/A UEL: N/A

<u>Extinguishing Media:</u> This material is not combustible. Foam, carbon dioxide or dry chemical may be used in areas where this product is stored.

<u>Special Fire Fighting Procedures:</u> Firefighters should wear full protective clothing when any material is involved in a fire.

<u>Unusual Fire and Explosion Hazards:</u> Contact with some metals: particularly magnesium, aluminum, and zinc (galvanized) can rapidly generate hydrogen which is explosive.

| Health -<br>Fire B | 2 0 | HAZARDS 4 B Extreme 3 B Severe 2 B Moderate |
|--------------------|-----|---|
| Reactivity-        | 1   | 1 B Slight<br>0 B None                      |

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume (ppm). "Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

## **Section V - Reactivity Data:**

Stability: Stable

<u>Conditions to avoid:</u> Leather, wool, acids, organic halogen compounds, organic nitro compounds, magnesium, aluminum, zinc (galvanized), tin, chromium, brass and bronze.

Incompatibility: (Materials to avoid) see above.

Hazardous Polymerization: Will not occur

<u>Hazardous Decomposition Products:</u> None Known

## **Section VI - Health Hazard Data:**

Routes of Entry: skin and eye contact, inhalation, ingestion

<u>Health Hazards (acute and chronic):</u> Acute - corrosive to all body tissues by all routes of exposure. The effect of local dermal exposure may consist of multiple areas of superficial destruction of the skin or of primary irritant dermatitis, similarly, inhalation of dust, spray or mist may result in varying degrees of irritation or damage to the respiratory tract tissues and an increased susceptibility to respiratory illness. Chronic - none known.

Carcinogenicity: NTP: No LARC: No OSHA: No

### **Emergency and First Aid Procedures:**

*Eyes:* Object is to flush material out immediately then get medical attention. Immediately flush eyes with large amounts of water for at least 15 minutes, holding lids apart to ensure flushing of the entire surface. Washing eyes within several seconds is essential to achieve maximum effectiveness. Get medical attention.

<u>Skin:</u> Immediately wash contaminated areas with plenty of water for at least 15 minutes. Remove contaminated clothing and footwear and wash clothing before reuse. Discard footwear which cannot be decontaminated. Get medical attention immediately.

<u>Ingestion:</u> Never give anything by mouth to an unconscious person. If swallowed, do not induce vomiting. Give large quantities of water, if available, give several glasses of milk. If vomiting occurs spontaneously, keep airway clear. Get medical attention.

<u>Inhalation</u>: Remove to fresh air. If breathing is difficult, have a trained person administer oxygen. If respiration stops, give mouth-to-mouth resuscitation. Get medical attention immediately.

## Section VII - Precautions for Safe Handling and Use

Steps to be taken in Case of Material Release or Spill: Only a trained person equipped with protective gloves, shoes and clothing should be permitted in area. Keep the material dry and shovel or sweep up material. After all visible material has been removed, flush area with large amounts of water.

<u>Waste Disposal Method:</u> Dispose of material in accordance with all local, state and federal regulations.

<u>Precautions to be taken in Handling and Storing:</u> Do not get in eyes, on skin or clothing. Avoid breathing dust, mists or spray. Do not take internally. Use with adequate ventilation and wear respiratory protection when exposure to dust, mist or spray is possible. When handling, wear chemical splash goggles, face shield, rubber gloves and protective clothing. Wash thoroughly after handling or contact. Exposure can cause burns which are not immediately painful or visible. Keep container closed. Product is corrosive to tin, aluminum, zinc and alloys containing these metals and will react violently with these metals in powder form.

Revised: September 7, 2000 Page: 3

### **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal use.

Ventilation: Sufficient to maintain dust levels below permissible exposure limits.

Protective Gloves: Rubber or PVC

Eye Protection: OSHA approved goggles with full face shield.

Other Protective Clothing or Equipment: Rubber apron, PVC clothing, and eye bath

recommended.

## **Section IX-Additional Information:**

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

ConstituentCAS #ConcentrationN/AN/AN/A

This notification of reporting requirements, cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

Trade Name: Power Capsule, Non-Phosphate - #8794 Prepared: September 19, 2000

Revised: March 2004

#### Section I: - Source Information

Manufacturer's Name: Michigan State Industries, Inc.

Address: Scott Correctional Facility

Emergency Phone: (734) 459-7400 x311 / 320

(800) 222-1222 Poison Control

Technical Information: (734) 459-7400 x311 / 320

Chemical Name: Detergent

#### Section II - Hazardous Ingredients/Identify Information

| Hazardous Components             | CAS No.   | OSHA PEL*       | ACGIH TLV*      |
|----------------------------------|-----------|-----------------|-----------------|
| Trisodium Citrate Dihydrate      | 1310-73-2 | Non-Hazardous   |                 |
| Sodium Metasilicate              | 6834-92-0 | Not established | Not established |
| Sodium Dichloro-S-Triazinetrione | 2893-78-9 | Not established | Not established |

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

#### Section III - Physical/Chemical Characteristics

Boiling Point:N/ASpecific Gravity:No DataVapor Pressure:N/AVapor Density:N/A

<u>Evaporation Rate: (Butyl Acetate = 1):</u> N/A Solubility in Water: Complete

Appearance and Color: White powder, chlorine odor

### Section IV- Fire and Explosion Hazard Data:

Flash Point: N/A Flammable Limits: LEL: N/A UEL: N/A

Extinguishing Media: Material is not combustible, foam

Special Fire Fighting Procedures: Wear protective clothing when any material is involved in a

fire.

Unusual Fire and Explosion Hazards: None known.

#### **NFPA 704**

| Health -    | 2 | HAZARDS<br>4 B Extreme     |
|-------------|---|----------------------------|
| Fire B      | 0 | 3 B Severe<br>2 B Moderate |
| Reactivity- | 0 | 1 B Slight<br>0 B None     |

## Section V - Reactivity Data:

Stability: STABLE

Incompatibility (Conditions to avoid): aluminum, fluorine, zinc, acids.

Hazardous Polymerization: Will not occur.

Hazardous Decomposition Products: None known.

Revised: March 2004

#### Section VI - Health Hazard Data:

Routes of Entry: Inhalation, skin and eye contact, ingestion

Health Hazards:

*Acute and Chronic:* Acute - corrosive to all body tissues by all routes of exposure. Inhalation may cause upper respiratory tract irritation, dizziness, headache, serious damage to lung tissue and respiratory tract. Chronic - none known.

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Dizziness, irritation

**Emergency and First Aid Procedures:** 

*Eye:* Immediately flush eyes with large amounts of water for at least 15

minutes holding lids apart to ensure flushing of the entire surface. Washing eyes within several seconds is essential to achieve maximum

effectiveness. Get medical attention.

Swallow: Never give anything by mouth to an unconscious person. Do not induce

vomiting. Give 2-3 glasses of water to drink. Seek immediate medical attention. Do not leave victim unattended. To prevent aspiration of swallowed product, lay victim on side with head lower than waist. If

vomiting occurs spontaneously give water to further dilute the

chemical.

Skin: Immediately wash contaminated areas with plenty of water for at lease

15 minutes. Remove contaminated clothing and footwear and wash

clothing before reuse. Discard footwear which cannot be

decontaminated. Get medical attention.

*Inhalation:* Remove to fresh air. If breathing is difficult, have trained person

administer oxygen. If respiration stops, give mouth-to-mouth

resuscitation. Get medical attention immediately.

### Section VII - Precautions for Safe Handling and Use

<u>Steps to be taken in Case of Material Release or Spill:</u> Only trained personnel equipped with protective gloves, shoes and clothing should be permitted in the area. Keep the material dry and shovel or sweep up material after all visible material has been removed. Flush area with large amounts of water.

<u>Waste Disposal Method:</u> Dispose of dry residues in an approved hazardous waste management facility in accordance with local, state and federal regulations.

<u>Precautions to Take in Handling and Storing:</u> Do not get in eyes, on skin, on clothing. Avoid breathing dust, mists, or spray. Do not take internally. Use with adequate ventilation and wear respiratory protection when exposure to dust, mist or spray is possible. When handling, wear chemical splash goggles, face shield, rubber gloves and protective clothing. Wash thoroughly after handling. Store product in a cool, dry area.

Revised: March 2004

Respiratory Protection: Not required during normal use of product,

<u>Ventilation</u>: Use adequate ventilation. Protective Gloves: Rubber or PVC.

<u>Eye Protection:</u> OSHA approved chemical safety goggles with full face shield. <u>Other Protective Clothing or Equipment:</u> Rubber apron, PVC clothing, eye bath.

### Section IX-Additional Information:

DOT Shipping Name: N/A Hazard Class: N/A

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

<u>Constituent</u> <u>CAS #</u> <u>Concentration</u> NONE

This notification of reporting requirements cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

Trade Name: Heavy Duty Liquid Laundry Detergent #8800 Prepared: August 28, 2000

Revised: March 2004

Revised: March 2004

## Section V - Reactivity Data:

Stability: STABLE

Incompatibility (Conditions to avoid): Strong acids and oxidizers

Hazardous Polymerization: None known

Hazardous Decomposition Products: May release carbon monoxide, carbon dioxide and oxides

of sulfur, sodium, potassium.

#### Section VI - Health Hazard Data:

Routes of Entry: Contact

<u>Health Hazards</u>: *Acute:* Irritation

Chronic: None Known Target Organs: Eyes, skin

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Eye and skin irritation

Medical Conditions Generally Aggravated by Exposure: Dermatitis

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If the product contacts the skin, wash the contaminated skin with water.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use:

<u>Steps to be Taken in Case of Material Release or Spill:</u> Contain and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. Precautions to be taken in Handling and Storing:

Other Precautions:

Revised: March 2004

#### **Section VIII - Control Measures:**

<u>Respiratory Protection:</u> Not required under normal conditions. Use NIOSH-approved respirator appropriate for emission levels.

Ventilation: General ventilation is adequate. Use exhaust fan if necessary.

<u>Protective Gloves:</u> Use chemically resistant gloves

**Eye Protection:** Safety glasses with shields or goggles to avoid eye contact.

Other Protective Clothing or Equipment:

Work/Hygienic Practices: Wash hands after use.

## Section V - Reactivity Data:

Stability: STABLE

<u>Incompatibility (Conditions to avoid)</u>: Amines, ammonium salts, ammonium nitrates, ammonium oxalates, methanol, aziridine, cellulose, thylene amine, phenyl acetonitrile Hazardous Polymerization: None known

<u>Hazardous Decomposition Products:</u> When heated to level of decomposition emits toxic fumes of Na<sub>2</sub>O and Cl<sup>-</sup>.

## Section VI - Health Hazard Data:

Routes of Entry: Contact, ingestion

<u>Health Hazards</u> Acute: Corrosive and irritant by ingestion and inhalation

Chronic: None Known

Target Organs: Mucous membranes, eyes, skin

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure:

Medical Conditions Generally Aggravated by Exposure:

Emergency and First Aid Procedures:

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: Get medical attention immediately.

Skin: If this product contacts the skin, immediately flush the contaminated skin

with water. If this product penetrates the clothing, immediately remove the

clothing and flush the skin with water. Get medical attention promptly.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

#### Section VII - Precautions for Safe Handling and Use

<u>Steps to be taken in Case of Material Release or Spill:</u> Contain and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly. Residue quantities may be flushed to sanitary sewer with large amounts of water.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It may exhibit the hazardous characteristic of corrosivity listed in 40CFR 261, Subpart C, pH analysis is required. State or local hazardous waste regulations may apply if different from federal.

Precautions to be taken in Handling and Storing:

Other Precautions:

Revised: March 2004

#### **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal conditions

Ventilation: Not required under normal conditions

Protective Gloves: Acid resistance

**Eve Protection:** Goggles to prevent splash into eyes

Other Protective Clothing or Equipment: Water repellant apron

Work/Hygienic Practices:

### Section IX-Additional Information:

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume(ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

Revised: March 2004

#### Section V - Reactivity Data:

Stability: STABLE

<u>Incompatibility (Conditions to avoid)</u>: Acids, metals, halogenated hydrocarbons,

maleic anhydride

Hazardous Polymerization: None known

<u>Hazardous Decomposition Products:</u> When heated to decomposition emits toxic fumes of K<sub>2</sub>O

and Na<sub>2</sub>O.

Breathing:

### Section VI - Health Hazard Data:

Routes of Entry: Contact, ingestion

Health Hazards: Acute: Eye and skin irritation

Chronic: None Known

Target Organs: Eyes, skin, respiratory system

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Irritation of eyes, skin, mucous membranes, pneumonitis,

coughing, sneezing, eye and skin burns, vomiting, diarrhea, temporary loss of hair

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

*Eye:* If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately. Do

not induce vomiting.

Skin: If this product contacts the skin, immediately flush the contaminated skin

with water. If this product penetrates the clothing, immediately remove the clothing and flush the skin with water. Get medical attention promptly.

If a person breathes large amounts of this product, move the exposed

person to fresh air at once. If breathing has stopped, perform mouth-to-mouth resuscitation. Keep the affected person warm and at rest. Get

medical attention as soon as possible.

### Section VII - Precautions for Safe Handling and Use:

Steps to be taken in Case of Material Release or Spill: Contain and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly. Residue quantities may be flushed to the sanitary sewer with large amounts of water.

<u>Waste Disposal Method:</u> This product exhibits the hazardous characteristic of corrosivity listed in 40CFR 261, Subpart C. It is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. State or local hazardous waste regulations may apply if different from federal. Precautions to be taken in Handling and Storing:

Other Precautions:

#### **Section VIII - Control Measures:**

Revised: March 2004

<u>Respiratory Protection:</u> Supplied or self contained breathing apparatus if ventilation cannot reduce concentration to below regulatory levels.

<u>Ventilation</u>: Mechanical ventilation to keep atmosphere below TWA and IDLH values <u>Protective Gloves</u>: Chemically resistant

<u>Eye Protection:</u> Wear appropriate glasses, goggles or face shield to prevent eye contact. <u>Other Protective Clothing or Equipment:</u> Wear appropriate personal protective clothing to prevent skin contact.

<u>Work/Hygienic Practices:</u> Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance; this is irrespective of the recommendation involving the wearing of eye protection. Facilities for a quick drenching the body should be provided within the immediate work area for emergency use where there is possibility of exposure.

## Section IX - Additional Information:

gastrointestinal irritation.

Medical Conditions Generally Aggravated by Exposure: Skin disorders may be especially

susceptible, liver and kidney conditions.

**Emergency and First Aid Procedures:** 

Eye: If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, immediately wash the contaminated skin

with water. If this product penetrates the clothing, immediately remove the clothing and wash the skin with water. If symptoms occur after washing,

get medical attention immediately.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

## Section VII - Precautions for Safe Handling and Use

<u>Steps to be taken in Case of Material Release or Spill:</u> Contain and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly.

Waste Disposal Method: This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal.

Precautions to be taken in Handling and Storing:

Other Precautions:

Revised: March 2004 Page: 3

### **Section VIII - Control Measures:**

Respiratory Protection: Not required under normal conditions

<u>Ventilation</u>: Mechanical to remain below action levels <u>Protective Gloves</u>: Wear if prolong exposure anticipated

Eye Protection: Goggles to avoid eye contact

Other Protective Clothing or Equipment:

Work/Hygienic Practices:

## **Section IX-Additional Information:**

DOT Shipping Name: N/A Hazard Class: N/A

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

<u>Constituent</u> <u>CAS #</u> <u>Concentration</u>

None

This notification of reporting requirements cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

Trade Name: Liquid Anti-Chlor #8805 Prepared: September 19, 2000

Revised: March 2004

## **Section I: - Source Information:**

Manufacturer's Name: Michigan State Industries, Inc.

Address: Scott Correctional Facility

Emergency Phone:  $(734) 459-7400 \times 311 / 320$ 

(800) 222-1222 Poison Control

Technical Information: (734) 459-7400 x311 / 320

Chemical Name: Sodium Metabisulfate

## **Section II - Hazardous Ingredients/Identify Information:**

<u>Hazardous Components</u> <u>CAS No.</u> <u>OSHA PEL\*</u> <u>ACGIH TLV\*</u>

Sodium Metabisulfate 7681-57-4 N/A

## **Section III - Physical/Chemical Characteristics:**

Boiling Point:>212 °FSpecific Gravity:1.02Vapor Pressure:N/AVapor Density:>1Evaporation Rate: (Ethyl Ether = 1):<1</td>Solubility in Water:100%

Appearance and Color: Clear, colorless liquid with strong odor

#### **Section IV- Fire and Explosion Hazard Data:**

Flash Point: None Flammable Limits: LEL: N/A UEL: N/A

Extinguishing Media: Water, carbon dioxide, dry chemical, foam

Special Fire Fighting Procedures: Fire fighters should wear self-contained breathing

apparatus and protective clothing.

Unusual Fire and Explosion Hazards:

| Health -    | 1 | HAZARDS 4 – Extreme        |
|-------------|---|----------------------------|
| Fire -      | 0 | 3 – Severe<br>2 – Moderate |
| Reactivity- | 0 | 1 – Slight<br>0 – None     |

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume (ppm)."Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

Revised: March 2004

#### **Section V - Reactivity Data:**

Stability: STABLE

<u>Incompatibility (Conditions to avoid)</u>: High temperatures

Hazardous Polymerization: None known

Hazardous Decomposition Products: When heated to decomposition may emit toxic fumes

of SO<sub>x</sub> and Na<sub>2</sub>O. Slowly oxidizes to sulfate on exposure to air and moisture.

#### **Section VI - Health Hazard Data:**

Routes of Entry: Contact, ingestion

<u>Health Hazards</u>: *Acute:* Irritation; eyes, skin, and lungs

Chronic: None Known

Target Organs: Eyes, skin, respiratory system

<u>Carcinogenicity:</u> NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Irritant to eyes, skin, mucous membranes

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

Eye: If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: Flush with water.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. Other measures are usually unnecessary.

#### Section VII - Precautions for Safe Handling and Use:

<u>Steps to be taken in Case of Material Release or Spill:</u> Contain and absorb spilled material, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly. Residual quantities may be flushed to sanitary sewer with large amounts of water.

<u>Waste Disposal Method:</u> This product is not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. It does not exhibit any of the hazardous characteristics listed in 40CFR 261, Subpart C. State or local hazardous waste regulations may apply if different from federal. Precautions to be taken in Handling and Storing:

Other Precautions:

### **Section VIII - Control Measures:**

Respiratory Protection: None required under normal conditions

Ventilation: None required under normal conditions

Protective Gloves: Chemically resistant

**Eve Protection:** Goggles to prevent eye contact

Other Protective Clothing or Equipment: Clothing to prevent skin contact

Work/Hygienic Practices:

Revised: March 2004

## **Section IX - Additional Information:**

DOT Shipping Name: N/A Hazard Class: N/A

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

<u>Constituent</u> <u>CAS #</u> <u>Concentration</u>

None

This notification of reporting requirements cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.

Trade Name: Liquid Oxygen Bleach #8807 Prepared: August 28, 2000

Revised: March 2004

#### **Section I: - Source Information:**

Manufacturer's Name: Michigan State Industries, Inc.

Address: Scott Correctional Facility

Emergency Phone:  $(734) 459-7400 \times 311 / 320$ 

(800) 222-1222 Poison Control

Technical Information: (734) 459-7400 x311 / 320

Chemical Name: Hydrogen peroxide

### **Section II - Hazardous Ingredients/Identify Information:**

<u>Hazardous Components</u> <u>CAS No.</u> <u>OSHA PEL\*</u> <u>ACGIH TLV\*</u>

Hydrogen peroxide 7722-84-1 1 ppm  $(1.4 \text{ mg/m}^3)$ 

## **Section III - Physical/Chemical Characteristics:**

| Boiling Point:                          | >212 °F                 | Specific Gravity:    | 1.05 |
|---|-------------------------|----------------------|------|
| <u>Vapor Pressure:</u>                  | >5 mm                   | Vapor Density:       | N/A  |
| Evaporation Rate: (Ethyl Ether $= 1$ ): | <1                      | Solubility in Water: | 100% |
| Appearance and Color:                   | Colorless, clear liquid | <u>рН:</u>           | 5.0  |

#### Section IV- Fire and Explosion Hazard Data:

Flash Point: N/A Flammable Limits: LEL: N/A UEL: N/A

Extinguishing Media: Carbon dioxide, dry chemical, foam

Special Fire Fighting Procedures: Fire fighters should wear self-contained breathing

apparatus and protective clothing.

Unusual Fire and Explosion Hazards: Oxidizer

#### **NFPA 704**

| Health -<br>Fire - | 1<br>0 | HAZARDS 4 - Extreme 3 - Severe 2 - Moderate |
|--------------------|--------|---|
| Reactivity-        | 0      | 1 – Slight<br>0 – None                      |

### **Section V - Reactivity Data:**

Stability: STABLE

Incompatibility (Conditions to avoid): Oxidizable materials, iron, copper, brass, bronze,

chromium, zinc, lead, silver, manganese <u>Hazardous Polymerization:</u> None known Hazardous Decomposition Products:

<sup>\*</sup>Exposure limits expressed as eight-hour time-weighted average concentrations in parts of contaminant per million parts of air by volume (ppm). "Other Limits" are recommended by the National Institute for Occupational Safety and Health (NIOSH) and are time-weighted over ten hours unless otherwise specified.

Revised: March 2004

#### **Section VI - Health Hazard Data:**

Routes of Entry: Contact

**Health Hazards:** 

Acute: Irritation to eyes, nose and throat; cornea ulceration; hair bleaching;

vesiculation of the skin; skin redness

Chronic: None Known

Target Organs: Eyes, skin, respiratory system

Carcinogenicity: NTP: No IARC: No OSHA: No

Signs and Symptoms of Exposure: Irritation of eyes, nose, throat, cornea ulcer, reddening

and vesiculation of skin, bleaching of hair

Medical Conditions Generally Aggravated by Exposure:

**Emergency and First Aid Procedures:** 

Eve: If this product contacts the eyes, immediately wash the eyes with large

amounts of water, occasionally lifting the lower and upper lids. Get

medical attention immediately.

Swallow: If this product has been swallowed, get medical attention immediately.

Skin: If this product contacts the skin, immediately flush the contaminated skin

with water. If this product penetrates the clothing, immediately remove

the clothing and flush the skin with water. Get medical attention

promptly.

Breathing: If a person breathes large amounts of this product, move the exposed

person to fresh air at once. If breathing has stopped, perform mouth-to-mouth resuscitation. Keep the affected person warm and at rest. Get

medical attention as soon as possible.

### Section VII - Precautions for Safe Handling and Use:

Steps to be taken in Case of Material Release or Spill: Contain and absorb spilled material with non-organic absorbent, dispose of properly. Large spill may be collected using vacuum equipment, dispose of unusable material properly.

<u>Waste Disposal Method:</u> This product exhibits the hazardous characteristics of ignitability listed in 40CFR 261, Subpart C. It does not listed in the federal hazardous waste regulations 40CFR 261.33, paragraphs (e) or (f), i.e. chemical products that are considered hazardous if they become wastes. State or local hazardous waste regulations may apply if different from federal.

<u>Precautions to be taken in Handling and Storing:</u> Keep container closed to avoid evaporation.

## Other Precautions:

#### **Section VIII - Control Measures:**

Respiratory Protection: If above regulatory levels used supplied air

Ventilation: Mechanical ventilation to maintain below regulatory levels

Protective Gloves: Chemically resistant

<u>Eye Protection:</u> Wear appropriate glasses, goggles or face shield to prevent eye contact. <u>Other Protective Clothing or Equipment:</u> Wear appropriate personal protective clothing to prevent skin contact.

<u>Work/Hygienic Practices:</u> Avoid skin and eye contact. If contact with skin or eyes occurs, flush with water and seek medical attention.

Revised: March 2004 Page: 3

## **Section IX-Additional Information:**

DOT Shipping Name: Hydrogen Peroxide, Aqueous Solution (8 - 20%), 5.1, UN2984, PGIII

Hazard Class: Oxidizer

This product contains the following compounds which are subject to the reporting requirements of Section 313 of Title III of SARA and 40 CFR 372:

<u>Constituent</u> <u>CAS #</u> <u>Concentration</u>

Hydrogen peroxide 7722-84-1 16.9%

This notification of reporting requirements cannot be removed from this MSDS and the copying and redistribution of this document must include this notice.
